

Connection Tool: LOVE Vox

One of my favorite ways to interact with students is through social media. After usage guidelines and norms are established, social media can be used a powerful tool to connect with and inspire our students. Social media can also be used to engage students in meaningful conversations and promote SEL in our classrooms. Voxer is a walkietalk app that is designed for groups to communicate. Coupled with a social media content calendar, it is a perfect way to show your students (and their families) some LOVE inside and outside of the classroom.
