Connection Tool: LOVE Vox

January

One of my favorite ways to interact with students is through social media. After usage guidelines and norms are established, social media can be used as a powerful tool to connect with and inspire our students. Social media can also be used to engage students in meaningful conversations and promote SEL in our classrooms. Voxer is a walkie-talkie app that is designed for groups to communicate. Coupled with a social media content calendar, it is a perfect way to show your students (and their families) some LOVE inside and outside of the classroom. This calendar can also be used with Google Classroom, Remind101, Seesaw, Twitter, TikTok, or other communitication tools.

What is one GLOW you would like to celebrate from last year?	What is one are you would like to GROW in this year/semester?	What is one GOAL you have for yourself, family, or community?
What does freedom mean to you? What is the most important freedom to have?	What do you dream about accomplishing one day?	What does it mean to resist? How have you witnessed recent efforts of resistance?	If you could write a song or paint a picture today, what would it be about?
If you could learn about a religion different than your own, what religion would it be?	How can we use our freedoms or privileges to fight for the equality of someone else?	If you could develop an app, what would it do and what problem would it solve?	Research a quote or speech from Dr. Martin Luther King, Jr. and share your reflections.
If you could do one thing you were told you could not do, what would it be and why?	Research the life or music of singer Marian Anderson and share one thing from her life that inspires you.	How can I (or we) hold you accountable to be your best self?	How you ever experienced discrimination? What are some ways we can stand up against discrimination?
What is your favorite part of YOU? Why?	What words of wisdom can you give a friend today?	What can I do to support you?	How can we improve our classroom community?
